Data Trust ASSOCIATES

CREATING SUCCESS WITH DATA IN A COMPLIANT MANNER

CAPABILITIES AND SERVICES

Data Management
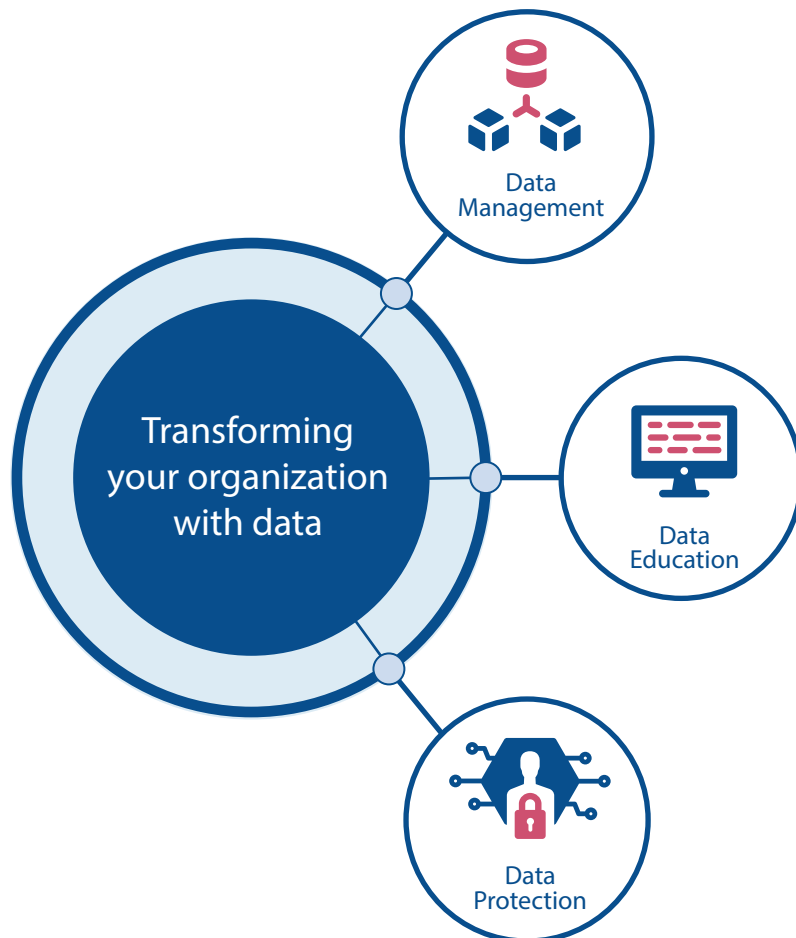

Transforming your organization with data

Data Education

Data Protection

Smart Compliance

Pre-filling DPIA's

Reducing the time and effort to complete and evaluate DPIA's with up to 80%, using automated risk determination and auto assignment of mitigating actions - increasing the quality of your DPIA's.

Keeping your RoPa up-to-date

Increase the long term quality of your Register of Processing Activities by automatically pre-filling it with data that's already available in your organization - reducing the workload of your privacy stakeholders with 50%.

Handling DSR's

Provide an answer to the question: "Which personal data of which data subjects resides where and how can I access/update/delete/... it?" - by reusing in depth knowledge of your organization's personal data (data governance).

Enforcing and executing a data-privacy policy

Automatically delete or anonymize personal data based upon your retention periods and retention policies - in a fully controlled and secure manner - reusing in depth knowledge about your organizations (personal) data.
